

# spectrum XATM

2-way closed Atmos speaker

tangent<sup>®</sup>  
DANMARK

- VERTICAL SOUND DIMENSION
- COAXIAL LOUDSPEAKER
- 2 ATTRACTIVES FINISHES
- DANISH DESIGN

The compact XATM speaker was specially designed to be placed at the top of a floorstanding speaker, in order to reproduce the ceiling surround effects in the Dobby Atmos audio tracks of the new Blu-ray movies. It adds a vertical sound dimension to offer the viewer even more realism and a total immersion experience.

The sound of the Spectrum XATM is accurate, faithfully reproduced by a 5" mid-bass driver and a 3/4" dome fabric tweeter. Complete your system with Spectrum floorstanding speaker X6 and Spectrum subwoofer XSW-8 and create a remarkable sound experience.
