TANGENT DAB2GO+

Classic design - new technology

The new DAB2go + is the latest model from Tangent's well-known 2go series. Like its predecessors, the DAB2go + offers high quality audio, ease of use and state-of-the-art technology, all tastefully packaged within a classic Walnut, highgloss Black or White Scandinavian design.

A premium radio tuner

The new DAB2go+ is of course also a radio with fast and reliable access to many local and national radio stations, thanks to a high quality digital tuner. You can choose to listen via FM analogue as well as Digital DAB and new DAB+ bands whenever you like, or set the radio to wake you up in the morning courtesy of the built-in alarm clock.

Danish Sound heritage

Like its predecessors, the sound quality of the latest DAB2go+ is unequalled for the size and price. The specially developed 3" full range speaker drive unit housed within an MDF bass reflex cabinet delivers optimum audio quality for both vocal and instrumental music. Plus with the option of choosing between 8 different pre-programmed EQ audio settings (equalizer), you can always adjust the audio to suit the listener.
